- ✓ self-development.

# Serhii Lohvynenko

## Junior Manual QA Engineer

**Summary**

I want to unleash the potential of my abilities working as a QA specialist. I want to grow in a team of like-minded people, creating high-quality software together with the company team to achieve outstanding goals.

**Technical skills:**

- ✓ Knowledge of SD methodologies (Scrum, Kanban);
- ✓ Knowledge of software testing theory;
- ✓ Understanding SDLC, STLC,
- ✓ Understanding verification and validation;
- ✓ Jira, Trello (creating bug reports);
- ✓ Html, CSS (link);
- ✓ SQL (simple queries, joins);
- ✓ Bash (basic commands);
- ✓ Git (basics commands);
- ✓ Postman (simple queries);
- ✓ Understanding client-server architecture;
- ✓ Understanding of API, REST;
- ✓ Chrome Dev Tools (basics);
- ✓ Other: Google Docs, MS Office, TeamViewer, VM;
- ✓ Tech experience background;
- ✓ Intermediate English;

**Experience****Manual QA Trainee (Apr 2021 - Apr 2021)****"TestTeamNow"**

- ✓ Testing of a web site;
- ✓ Analyze requirements and design;
- ✓ Creating test cases, checklists, bug reports, test reports;
- ✓ Working with team members;
- ✓ Working with Trello;
- ✓ Participating in team meetings.

**Manual QA Trainee (Jan 2021 - Mar 2021)****"SkillUp training center"**

- ✓ Web testing;
- ✓ Mobile testing;
- ✓ Creating checklists, bug reports, test reports, using test design techniques;
- ✓ Working with Jira;
- ✓ Working with Dev Tools.

**Freelance as Sound install consultant (2020-2021)**

- ✓ Consulting on new projects (analysis of requirements, development of project documentation);
- ✓ Problem fixing, finding faults in equipment and eliminating them;
- ✓ Training of staff.

**Freelance as Live sound engineer (2017-2019)**

“Gloria Orchestra (non-commercial project)”

- ✓ Tech work (mixing, equipment setup, connecting according to the schemes, testing, tuning);
- ✓ Participated in the drafting of the project (analysis of requirements, creation of docs);

**Achievements:**

- ✓ Ensuring the uninterrupted operation of the equipment (even had equipment failure);
- ✓ Suggested start documentation. It helped to avoid a lot of misunderstandings and mistakes because of using the documentation;
- ✓ Used Trello and Google Docs to control the processes;
- ✓ Helped resolve several conflict situations as mediator;
- ✓ Improved my teamwork skills with 5-10 people techs and over 100 musicians.

**Freelance as Sound install consultant (2012-2017)**

“sound design and installation of a conference hall”

- ✓ Development of a turnkey project (study of technologies, consultations with the customer, analysis of requirements, development of documentation, acoustic calculations);
- ✓ Deployment of the project (laying of communications, installation and deployment of equipment, testing, tuning, use of acoustic calculations, drawings, sound editing, equipment control software, network setup, programming of the power controller);
- ✓ Teamwork (training of staff, coordination of tasks, conflict resolution);

**Achievements:**

- ✓ Proposed an optimal technical solution with many advantages: excellent quality sounding in a complex room, new features in switching, connecting, sound mixing, remote control, extensible architecture, ease of use for inexperienced users, ability to save all settings.

**Facade insulating builder (2010-2020)**

“Alta system”

- ✓ Worked on assembling of external wall insulation systems;
- ✓ Worked according to the requirements;
- ✓ Worked as a team member and autonomously;
- ✓ Defects detection and correction;
- ✓ Attended masterclasses to develop professional skills.

**Computer Science fundamentals teacher (2007-2010)**

“Comprehensive Secondary School No.48” in Odesa

- ✓ Computer Science fundamentals teaching;

**Achievements:**

- ✓ Computer equipment installation, network setup (created backups to restore all hosts in 5 mins);
- ✓ Organized two workshops on using ICT for history teachers’ association of the Suvorovsky district;
- ✓ taught the high school students to create videos on History topics instead of paper works;
- ✓ Created a set of methodological documents on the CS subject;
- ✓ Actively helped to update school office documentation according to the requirements.

**Freelance as Sound engineer and designer in media production (1996-2007)**

- ✓ mainly sound studio recording, promote videos making, creation of layouts for the printed product.
